

WHAT HAPPENS DURING A GROOM AT THE BLUE HOUND.

INFOGRAPHIC

INTRODUCTIONS

Whether it's your pup's very first visit or their 100th, we always set aside time to help them feel right at home! Each appointment includes a little free-roam time around the house and yard so they can stretch their legs and take care of business before the grooming begins. Our groomer uses this time to keep a caring eye out for anything that might need extra attention. For our first-time visitors, we also include some special one-on-one time to get to know each other and help them settle in comfortably.

EVALUATION

Before the real fun begins, we start by getting your pup settled on the grooming table. With extra bright lighting and gentle hands, our team begins by brushing out the coat and assessing its condition to create the perfect game plan for the groom. If we notice anything that may need a little extra care or a change to the original plan, we'll give you a quick call to keep you in the loop. During this stage, we work on removing tangles, mats, and any excess hair to prepare the coat for a beautifully shaped finish!

SCRUB-A-DUB-DUB

Now it's time for the fun part—bath time! Depending on your pup's size and needs, they'll be pampered in either our cozy grooming tub or our easy-access walk-in. We use warm water and carefully chosen shampoos tailored to their coat type and the package you selected. It's all about getting them squeaky clean, feeling fabulous, and looking like the star they are!

DRY TIME

Once your pup is squeaky clean, we wrap them in a soft microfiber towel for a cozy start to drying. Then, back on the grooming table, we gently dry their coat using a variety of specialty towels. Depending on their coat type and comfort, we'll continue with towel drying, a high-velocity blow dryer, or our quiet comfort dryer—whichever keeps them calm and looking their best!

When we have multiple dogs, we start with the comfort dryers while washing the next pups in line. This helps us work efficiently and keep prices affordable for you.

NAILS, EARS, & TEETH - OH MY!

Once your pup's coat is mostly dry, we move on to the finishing touches included in your selected package. This is when we take care of the little details that make a big difference—like trimming or dremeling nails, gently cleaning ears, brushing teeth, and applying any special add-ons such as coat treatments, paw balm, or a soothing body butter massage. It's our way of making sure your pup feels as great as they look!

BRUSH, BRUSH, & CUT

Next up—it's brush-out time! This is where many of our deshedding packages really shine. Depending on the package you've selected, we'll brush your pup for the allotted time, keeping their coat moisturized and manageable throughout the process.

Once fully brushed, we move on to the main event: hygiene trims, full-body shaves or cuts, mat removal, or full-body styling—whatever your pup needs to look and feel their best. This is the most time-intensive part of the groom, and we give it the care and attention it deserves. *We also have special equipment and supports available to help our senior pups stay safe and comfortable every step of the way.*

SCISSORS DOWN!

Your pup is looking fresh and fabulous! We add a cute accessory, a spritz of cologne, and send you a text with the pickup time. While we finish up the report card and invoice, your dog gets time to relax, rehydrate, and unwind. Need more time? Ask about our daycare add-on with any groom!
