

GET READY FOR DAY CARE AT THE BLUE HOUND.

INFOGRAPHIC

HOW TO PREPARE

The night before daycare is a great time to layout any gear your pup will need for the daycare. Please ensure your pup has had a potty break before leaving. Don't forget to wipe muddy paws/body so they arrive clean. Write down any care updates, changes, or differences from previous chats.

WHAT TO BRING

We ask that you bring your dog(s) collar/harness, leash, ID tag/rabies tag, and *dog food/treats (if eating with us)*. If on medications, please have them clearly labeled and in original containers. Optional is to include bed or crate pad. If your pet is anxious, please bring a blanket or towel from home. Having this ready all in one bag makes it super helpful to keep us organized and get everything back to you easily.

DROP OFF

Load up all the pet gear in the car and send off a text message letting us know an estimated arrival time. Dogs should have their collar/harness on and their leash attached or ready to use. When you arrive - please park to either side of the driveway to allow other vehicles access. Please bring your pet inside with their leash attached for safety and ease of transition. After your pet is secured with me, then bring in any gear.

WHILE YOU'RE AWAY

Your pet will be in excellent hands! Periodically we will send picture and/or text updates. By no means should you feel obligated to respond to these messages, we just want you to know how your pet is doing. In case of an emergency, we will make continued efforts to reach you while safely resolving any issue.

PICK UP

While I love having dogs here, watching the excitement of seeing their owner will remain my favorite moment. When you head our way, please send a text so we can begin gathering your pets items. I'll help you get the dog and gear into your vehicle, also please help me by double checking you have all the gear sent over.

BACK AT HOME

Things may be a little different when your dog first comes home. This doesn't mean that there is necessarily anything to worry about. You may notice your dog is being lethargic, but it is **no cause for worry** - we kept your pup busy and entertained. Lastly, as unpleasant as it is, a little diarrhea after daycare isn't usually a cause for concern. This tends to occur by over-excitement and will typically settle down quickly.

TIMELINESS

Our client relationship is built on mutual trust and respect. As such, we ask that you are on time for your scheduled drop off and pick ups. Please give us the courtesy of a call/text when you are running late or if you'd like to arrive early. Please see our attendance policy for more information and to avoid fees.
